FINANCE AND TRADE.

THE FINANCIAL DEPARTMENT OF business yesterday was a mere show. Principals and clerks were kept at their posts, but nothing was doing. Then why keep the banks open? Because the State legislature-in that excess of wisdom for which it is so distinguished in Tennossee-while it has provided for ending Friday aggregated 140 bales, closing the banks on the Fourth of July, against 220 bales the previous week, has made no provision for the fifth of and 894 bales the corresponding week July when the Fourth happens on a just season. The total receipts since Senday. There were no telegrams from the east. Noah on the waters knew as much as business men and banks knew last season, showing a decrease of 104,916 yesterday of what was going on outside -yet our Nonhs were pottering about in their arks when there was no flood. When will Hight break upon us in Memphis, so that we shall do business when we have it, and make holiday when we have none? Reviewing the past week the principal feature is that there has the same time last year, a decrease of an increased demand for moneynothing great in itself, but significant as a beginning that may become something very soon. Money will be wanted | bales at this time last year. before September comes, but it is said that many eastern capitallsts stand that many eastern capitalists stand ready to accommodate, at 7 per cent., all week, and 3450 the corresponding week better let it alone. Wheat rewards atcotton growers who need help and can last season. Of the 1500 bales taken make a good show. In the city Shelby county scrip is taken by holders at 72(a) 75: city police and fire scrip at 76@77; city school serip at 87@88; Tennessee new a sue at 20; State treasury notes at Nothing doing in city securities of any importance, whether bank or in-

OUR REVIEW of the cotton market last week quoted New York at 15 c, which value with the new classification: on Tuesday became 15 jc, but on Friday advanced again to logo. New Orleans quoted 15 c, but next day declined to 15to. Liverpool quoted 7 7-16d, but de-low show that nearly all the cotton bought during the week was taken by spinners, and it is stated that eastern mills are doing so poorly that they contemplate a unanimous closing for six weeks, principally with the object of working off stocks. The stock in this city is now so low that we can have only an unimportant trade to the end of the season. The Liverpool Cotton Report of Watts & Co. reports business unsettled by commercial fail-ures, and prices of American cotton down to about as low a peint as has been touched within ten years past, and this in face of a decline of 300,000 to 400,000 from the current estimates at the opening of the season, and at a time that had been looked for as certain to bring higher prices. To the question, What has caused this? the Cotton Report repiles: "The root of the matter is, we believe, found mainly in the prostration statements for the United States ports of trace in the United States during the | for the week ending Friday last; past nine months, and the high premium on gold at New York. American spinners Caving taken much less cotton this year than was expected, have left all the more to come to Europe. In 1873 the average oremlum on gold in New York was about 121 per cent, and in 1874 about 117 per cent, but during the three months ending thirty-first ultimo statement for the week ending July 2 three months viding thirty-first unions the average prevalum was 15½ per cent.

and yesterday was 17½ per cent. Cotson, it will be borre in mind, is sold in the States for currency, or greenbacks, which, being a legal-tender in the payment of debts, etc., it matters little to the producer or bolder what the gold value is, whilst to the exporter it is a very important tiem. For instance, the average prevalum was 15; per cent., a very important hem. For instance, suppose gold was now at 1111d in New York, instead of 1174d, cotton purchased York, instead of 1174d, cotton purchased there was nothing in the way of quota-at p sent quotations in New York tions arriving. We therefore simply rewould cost an exporter about id per outed more, and hence he would not or rehase, or would require a correspond- or transactions worthy of record. selvance here to cover cost, etc." affect of our deranged currency on the fortunes of the cotton planter, as plainty shown by the Liverpool writer, is worth more attention than it has received. The Report also adds large receipts from India as another cause for the depression dependence of the United States, every

of price. All this has been aggravated by the serious commercial failures that have occurred, which have weakened public confidence and gives a tendency to restrict trade operations. The various cutton exchanges of the cotton districts have issued their official reports of the Rosedale coment, \$2.40; Louisville cocondition of the growing crop, and they confirm the high expectations that are doing so much to revive public confidelog so much to revive public confidence and to encourage anticipations that the "hard times," caused by the | the inquiry was limited, but stocks were panic of 1878, are near the'r lermination. exhausted. Egg plants, 300650c per dozen; green

corn, 15c per dozen; peaches, 75@\$1 per ox; squashes 30c per dozen. WHEAT-During the week the offer-ings have been small and mostly smuted. It would appear as if our growers knew no more how to keep wheat from smut than they know how to keep butter from being white. This ignorance of processes that are as easy "as falling off a log," is most discreditable, and shows the need of public schools to teach | are about towrench her only hope of exus the very elements of knowledge. All wheat seed should be steeped in sulphate of copper dilution-bluestone dissolved in water, to free it from smut. We learn that some farmers have taken their choice lands for cotton and put poor lands for wheat. Poor growers! wheat is too noble a crop to be put aside in that Sales during the week were 1500 manner. It wants deep plowing and bales-against 1700 bales previous maneuvering, and wheever does not this week, spinners took 1400 bales; tention magnificently, but neglect it exporters, 100 bales; last year the total and it will show its scorn. When ales of the week were 2800 bales.

The following statement, compiled bured, the seed must be soaked

from our official records, shows the receipts, shipments, sales, closing prices conditions grand things can be and average price of cotton at Memphis | doce. Treat wheat neglectfully, and it for each week since the present season will return scorn abundantly-it takes man devoid of sense, to expect a good crop and a high price without the expenditure of money and brains. There is a fortune in southern wheat, because it is early in the market. This should be an incentive to exertion; the vacant empty-minded creature that thinks he an get a fortune out of wheat for nothing is fit for transportation to the autipodes. No word can describe his ignorance, no prophet predict the extent of

MARINE CHRONICLE.

the failure such an empty mind must de-

velop itself to be.

Meteorological and Aquatic.

The atmosphere was full of Fourth of July yesterday and last night, and in point of temperature suited the occasion to perfection. Whatever might have been the political differences yesterday, everybody was a unit on the fact that it was hot, at the same time everybody seemed afraid his neighbor had not noticed it, and kindly reminded him by suggesting it. Such is life. The weather observer notes the thermometrical elevation at 94, and the maximum reached during the day of 97-four degrees higher than the day previous. At other points the temperature was as follows: Cincinnati, 81; Galveston, 93; Leavenworth, 77; New Odeans, 83; St. Louis, 92; Vicksburg, 91. Also that rain occurred at Omaha, Cincinnati, Louisville, Leav-

enworth, New Orleans and LaCrosse. The following is a summary of the signal officer's reports of the condition of rivers at all points up to six o'clock last night: Cincinnati, 14 feet 3 inches the channel; rise I foot 2 inches. Keokuk, 12 feet,8 inches; rise 1 foot 6 inches. Leavenworth, 16 feet 1 inch; rise 6 inches, Louisville, 7 feet 6 inches; fall 3 inches. Memphis, 23 feet 11 inches; rise 7 inches. New Orleans, 7 feet 11 inches below bench mark; fall 2 loches. Pittsburg, 3 feet 3 inches; fall 3 inches. St. Louis, 25 feet 2 inches; fall 2 inches. Vicksburg, 30 feet 9 inches; rise 5 inches.

Movements at the Levee. Below we give the arrivals and departures since last report, boats in port, and packets leaving to-day:
